

**Kingdom Investment**

Friends, there is a great need to see unbridled men rise. The statistics illustrate a bewildering picture of the posture of men and the result of their absence in our society. However, with great need, there is hope. NWA is rescuing men for Christ and freeing them into a life of adventure as His followers. We are humbled that God has continued to use us mightily in the lives of men and their families, and we are very privileged that God has given us an opportunity to be stewards of this mission. Will you please prayerfully consider investing in the life of men? Please review the list of opportunities to the right.

NWA has shown me the difference between being a male and being a man. Society has offered a lot of confusion and much that is just simply false. Through the encouragement and guidance of NWA, I have taken a closer look at God's definition of manhood (masculinity) as revealed in his Word; especially the example He revealed to us through Jesus Christ. It has been life changing.

— Brian (Local Participant)
